PROFILE

Full-stack developer with over four years of freelance web development experience and hands-on training in Java, Spring Boot, React, and SQL. I enjoy building practical web products and working across the interface, API, and database.

TECHNICAL SKILLS

Frontend: JavaScript, React, Redux Toolkit, React Query, HTML, CSS, Tailwind CSS

Backend: Java, Spring Boot, REST APIs, Spring Data JPA, Hibernate, Node.js, PHP

Databases: PostgreSQL, MySQL, SQL

Tools: Git, GitHub, Docker, Maven, Postman, Cypress, Vitest

EXPERIENCE

Freelance Web Developer - BBROZ

Remote | February 2022 - Present

- Built responsive business, e-commerce, and custom websites based on client needs.
- Worked with JavaScript, React, jQuery, PHP, and OpenCart to build and improve features.
- Handled client communication, troubleshooting, deployment, and ongoing updates.

SELECTED PROJECTS

ServiceFlow | Java | Spring Boot | React | PostgreSQL | [Live Demo](#) | [GitHub](#)

- Built a field service platform that follows a request from submission to scheduling and completion.
- Created separate admin, technician, and customer views with a Spring Boot API and PostgreSQL.

Pizza Ordering App | React | Vite | Cypress | [Code](#) | [Live Demo](#)

- Built a responsive ordering flow with customizable pizza options and real-time price updates.
- Used React state and Cypress tests for the main user flows.

Ajanswork Service Marketplace | OpenCart | PHP | MySQL | [Live Site](#)

- Adapted an OpenCart site into a marketplace for talent, venues, and events.
- Customized filters, profile pages, and the inquiry flow.
